HEADLINE

IT Professional

SUMMARY

I am a technically competent **professional with experience of 15 years across Project Management, Software Architect/ Development/ Implementation, Database Management, Best Practice Implementation, Technical Support and Team Management.** I have been instrumental in designing and providing cutting edge IT solutions aligned with the business requirements within a short turnaround time. I have been **managing the complete life cycle of development/ support projects including analysis of the client requirements, translating new ideas into clients' solutions, requirements development, delivery, analysis and documentation.**

Armed with strong techno-commercial acumen and significant devotion, I have been consistently exceeding performance benchmarks and steering my way forward towards resolving complex technical problems and meeting project deadlines. In the course of my association with the IT Industry, **I have demonstrated abilities in managing the complete IT business cycle including need assessment, preparing IT Blueprint, Strategic Management, and delivering quality technical/IT solutions.** My unique approach is to help businesses to be more efficient and provide a better service to the customers. **I have proven ability in designing and establishing components for complex, major projects to agreed project plans and to defined Technology standards to meet project requirements.**

Focused and pragmatic with solid relationship management skills, I am **confident of successfully interacting with clients, assessing their business requirements and delivering appropriate IT solutions.** I always endeavor to strive for quality and apply process and discipline towards optimizing performance. The main objective is always to **provide inspirational leadership to the team on the projects and successfully meet the requirements of the clients.** I am consistently working toward the achievement of operational standards by providing significant inputs for the development of strategic plans and reviews.
